Dale:

We are pleased to provide a reference letter on behalf of United Golf based on the irrigation system installation work performed for us at Blue Ridge Shadows Golf Course in Front Royal, Virginia in 2005, and Hanover Country Club in Ashland, Virginia in 2006. Both sites provided many challenges, including schedule, site conditions, and budget. In each case, United Golf was able to meet the challenges and complete the irrigation system installation on time with excellent quality.

We would be pleased to recommend United Golf as a golf course irrigation system installer without reservation. Feel free to have anyone contact me if they need additional information.

Sincerely,
Hydro Designs, Inc.
