To Whom It May Concern:

United Golf has rebuilt all the tees and bunkers on the East golf course at Lincoln Park Golf Club in Oklahoma City, OK. They have also installed a complete Toro irrigation system; approximately 85% of the irrigation has been completed at this time. Everything has been installed exactly according to blue prints and works quite well.

The irrigation crew is one of the best I've seen. The construction crew has done an excellent job of laser grading all the tees and bunkers.

I feel the entire project has gone extremely well. Mike Webb has done a great job of managing the entire project; I commend him for a job well done.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jim Wood".
